Intelligent Control (Hard Reset Manually)

1) Turn off at Isolator Switch

2) Depress left and right-hand buttons

3) Turn on at Isolator Switch (whilst keeping left and right buttons depressed)

4) Keep buttons depressed for 10 seconds OR till you hear a click, OR the logo appears then release the buttons

5) Turn off at the isolator Switch for a further 2 seconds and then switch back on

Try this method a couple of times if it does not work then please get back in contact.
