

How to program and set times on the Magnum Xtreme Control (MXC) Thermostat

Legend

HOW TO PROGRAM THE CONTROLLER

1. When the temperature is in the middle of the screen press the DOWN ARROW Once
2. Press the DOWN ARROW to highlight "Program" and then press the MIDDLE BUTTON once.
3. Press the MIDDLE BUTTON once and "PROGRAM TYPE" will appear at the top of the screen.
4. Press the DOWN ARROW once and then press the MIDDLE BUTTON once.
5. Press the DOWN ARROW once and "WEEKDAY" will appear at the top of the screen.
6. Press the DOWN ARROW to select what day you want to program and then press the MIDDLE BUTTON once.
7. Press the DOWN ARROW until "SET" is highlighted and press the MIDDLE BUTTON once.
8. Press the DOWN ARROW to select "1 period" or "2 period" and then press the MIDDLE BUTTON to confirm your setting
9. "P1: START TIME" will appear at the top of the screen Press the UP ARROW until you reach the hour you want the system to first turn on and then Press the MIDDLE BUTTON to confirm.
10. It will go onto the minutes and do the same again selecting the minute you want it to turn off and then press the MIDDLE BUTTON once.
11. "P1: END TIME" again repeat step 9 and 10 but this time selecting when you want the system to turn off.

12. "P1: TEMPERATURE "Will appear at the top of the screen and press the UP or DOWN ARROW to select the temperature you want and then press the MIDDLE BUTTON once.
13. If 2 periods have been select repeat steps 9 – 12 but where "P1" is stated it will instead be "P2"
14. Once you have programmed your day i.e., "Sunday". Then you can program each day individually in case your schedule changes per day i.e., you want it longer on Wednesday or Friday

IF YOU HAVE THE SAME PROGRAM EACH DAY

When you programmed your first day and want to have the same program each day then do the following:

1. When on your programmed day (i.e., Sunday where you set the time and temperature) press the DOWN ARROW until "COPY" is highlighted in the middle of the screen and then press the MIDDLE BUTTON once.
2. It will take you back to the weekday, press the DOWN ARROW to select what day you want to copy the program to and then press the MIDDLE BUTTON once
3. When the day is at the top of the screen (i.e., Monday) press the DOWN ARROW until it says "Paste" and press the MIDDLE BUTTON once
4. It will display saying "PASTED" and it will display all the times and temperature the system will heat up to
5. It will take you back to the day (i.e., Monday) press the DOWN ARROW until it says "Back" and then press the MIDDLE BUTTON once.
6. It will take you to Weekday and then Press the DOWN ARROW until you get to the next selected day you want to copy the program to and press the MIDDLE BUTTON once
7. Repeat steps 3 -5 to paste the time and temperatures to that day and keep repeating until all the days you want the program pasted to
8. When on Weekday press the DOWN ARROW until it says "Back" and press the MIDDLE BUTTON once

9. And press the UP ARROW once and when in "MAIN MENU" press the UP ARROW until "Back" is in the middle of the screen and then press the MIDDLE BUTTON once.
10. You have now fully programmed your controller and can enjoy the system running at your selected times.
